Buoy Deployment Report

seaiceportal.de

Buoy information

Buoy name: 2020C34
IMEI: 300234066890260
Buoy type: Calib
Buoy owner: Alfred Wegener Institute, Helmholtz Centre for Polar and Marine Research

Deployment information

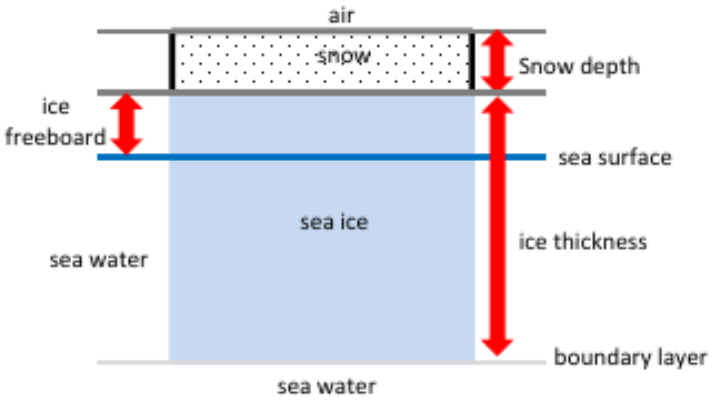
Date and Time (UTC): 08.09.2020 12:13
Position (Lat/Lon): 83.26945/8.08876
Region: northern Fram Strait
Contact:
Jakob Belter (AWI)
Expedition name: IceBird MOSAiC
Means of deployment: Plane - airdrop

Snow and ice conditions

Snow depth:
Ice thickness:
Ice freeboard:
Ice types:
FYI (First Year Ice)

Buoy-specific parameters

Sensor temp stop: 2020-11-08 08:00 UTC
Sensor gps stop: 2020-11-08 08:00 UTC



Additional information *(comments, weather, topography, ice floe size, etc.)*

Overcast (unbroken clouds), large floes, 100 percent sea ice concentration, refrozen leads, frozen open water patches
Floe size: 3x5km
